## PhD Fellowship at Instituto de Física Corpuscular (IFIC-Valencia) on Experimental Nuclear Astrophysics

The Foundation "la Caixa" offers within the PhD Fellowship program "INPhINIT Incoming" 35 fellowships to talented foreign students who want to work at outstanding Spanish research centers. Candidates that fulfill the conditions will be appointed according to their merits and can choose the PhD work subject from a selection of topics.

Within this program, the Gamma Spectroscopy and Neutrons group at IFIC ([web](#)) offers the possibility to work on the study of nuclear decay properties relevant in the explosive stellar nucleosynthesis of heavy elements. Additional details of the research work can be obtained at [work description](#).

Further information about the INPhINIT program and conditions, the IFIC center and the application procedure can be obtained at [inphinit](#). The dead line for applications is February 6th, 2019. For additional questions please contact: Jose L. Tain ([tain@ific.uv.es](mailto:tain@ific.uv.es)).

Valencia, December 5th, 2018
